6/ On principle, I am not in favour of the students being supplied with books at the cost of the Govt (the Govt notes in the budget branch must file). Last year, we allowed the Commission in favour of the students who submitted half the cost of the books for fear that the students would be deprived of their own property if the Commission was altogether stopped. There is no reason for any such fear in future. The Govt has established its reputation and there is a keen demand for remedial education. The Commission may be done away with altogether, but the Commission should be continued. Also the 2nd, 3rd & 4th year classes being continued.

7/ The question of raising the value of the award does not arise and even if it does, I am not in favour of enhancing it permanently.

8/ The Govt has decided to let the Commission make its own arrangements.

9/ Draft please

MYSORE MEDICAL DEPARTMENT.

In reply quote

No. C.1538-1

OFFICE OF THE SENIOR SURGEON,
MYSORE GOVERNMENT,

Dated Bangalore, the 22nd March 1922.

Encl.

Telegraphic Address

"SENORGEN"

FROM

The Senior Surgeon with the Government of
His Highness the Maharaja of Mysore,
Bangalore.

To

The Secretary to the Government of

H. H. the Maharaja of Mysore, Revenue Department,

B a n g a l o r e.

SIR,

I have the honor to bring to notice that paragraph 1(5) of G.O.No.G.23921-2-Med.161-20-5, dated 7th June 1921, ordering certain measures of retrenchment in the expenditure connected with the Medical School, directs that "one half only of the cost of books and instruments will be paid to the 1st Year stipendiary students" during the year 1921-22. This batch of students will soon pass into the second year and will have to be given the full cost of the books used for the second year course. Similarly the batch of students that will be admitted into the first year class in July 1922 will claim the full cost of books as the G.O. quoted above will not apply to them unless it is extended to the next year also by a specific order of the Government.

Apart from other considerations, one great inconvenience felt in giving effect to the above G.O. is that it gives the students the ^{option} ~~right~~ to obtain their books ~~from~~ from their usual book-sellers and the Principal is obliged to pass half the amount charged in the Bookseller's bill. When bills from different Book-sellers differ (either on account of different rates at which the books may be priced or different rates of packing charges or postage) objections from the audit office

arise, involving unnecessary correspondence. Again, the fluctuations in the market make it difficult to keep within the limit of Rs.275/- for the full course, towards cost of books and instruments, prescribed by G.O.No.G.21665-6-Med.68-19-3, dated 20th March 1920. The concession of granting the full cost of books to lady students has caused much discontent among the male-students. H

To obviate all these difficulties I again recommend, for re-consideration, the proposal I had made in paragraph 2 of my letter No.G.C.314-3, dated 22nd April 1921, which ended in the issue of the G.O. first referred to, viz, the increase of the present rates of stipends of male and female students from Rs.15 and Rs.20 to Rs.20 and Rs.25, respectively, per mensem. The financial effect of the change will be, that, as stipends in the fourth year will cease after the Board Examination, ~~xxx~~ i.e., at the end of April, a student's course will really extend to a period of 46 months and an increase of Rs.5 in his stipend will result in an increase of Rs.230/- in the total cost of his course against Rs.275 (or some times more) the cost on books. In cases where a stipendiary student fails to carry out the terms of his covenant and is called upon to refund the money spent on him by Government, he offers to return the books and instruments supplied to him instead of their cost, as was permitted in certain cases, the deterioration undergone by the books is a factor presenting some difficulty in settling the amount to be recovered from the defaulting student. This will be obviated if the help given by Government is all converted into money grant. I therefore request that the grant of books or their cost may altogether be discontinued and the rates of stipend may, instead, be increased to Rs.20 for males and Rs.25 for lady candidates from July 1922 onwards and that this changed rule may also be applied to the present 1st year batch which will pass on to the 2nd year course. The 3rd and 4th year students will have to be governed by the old rules under which they had entered the school. E

From the number of ~~students~~ private students who ~~have~~ joined the Medical School at the beginning of this year it may be said that the institution has become fairly popular and is attracting students even from Madras and other parts outside the State. In this office letter No.G.C.323-2, dated 15th April 1921 which was a reply to your office Memo.No.G.18514, dated 2nd idem, the raising of the tuition fee from Rs.36 to Rs.100 per annum. But it was only raised to Rs.50 according to paragraph 2 of the G.O. of 7th June 1921. In Madras the rates are Rs.60 in the case of private pupils belonging to the Madras Presidency and Rs.100 in the case of those from outside the Presidency and the Native States. I therefore request that the rate of school fee may be raised to Rs.60 per annum, and, to suit the convenience of the poorer class of students, it may be made payable in four quarterly instalments of Rs.15 payable by the 10th July, (or at the time of admission in the case of new entrants), 10th October, 10th January and 10th April, ~~instead~~ instead of in advance as at present. To encourage lady students to come forward and obtain training in the Medical Profession, I would recommend that private lady students may be admitted as free scholars, on their paying merely an entrance fee ~~which~~ which may also be raised from Rs.2 to Rs.5, as in Madras.

I request the favor of early orders.

I have the honor to be,

Sir,

Your most obedient servant,

L.B. Mylerson

Senior Surgeon.

the difficulties referred to in the 1st para above, the Senior Surgeon is requested to arrange for the purchase of books from authorized booksellers and supply them to the stipendiaries after recovering half the cost in the case of the 2nd year students.

3. The other proposals of the Senior Surgeon ~~to~~ ^{to} increase the tuition fee of private candidates from Rs 50 to 60 ~~and~~ ^{and} the ~~an~~ ^{an} entrance fee for lady students from Rs 2 to Rs 5 are ~~approved~~ ^{approved}.

Per Secy to Govt
1/4/21

To The Senior Surgeon in charge
" Comptroller to Govt

Proceedings of the Government of His
Highness the Maharaja of Mysore.

Read:-

Government Order No.G.21665-6/
Med.68-19-3 dated 20th March 1920, fix-
ing the scale of cost of books and ins-
truments supplied to the stipendiary
medical pupils in the Medical School,
Bangalore, at Rs.275/-.

(2) Government Order No.G.23921-2/
Med.161-20-5 dated 7th June 1921, order-
ing certain measures of retrenchment
in the expenditure of the Medical School
and directing that during the year 1921-
22, one half only of the cost of books
and instruments be paid to the 1st year
students and the full cost to students
of the other classes.

(3) Letter No.C.1538-1/ dated 22nd
March 1922, from the Senior Surgeon in
Mysore, submitting proposals for revis-
ing the rates of stipends payable to the
students of the Medical School as well
as the rate of fees to be levied and
for discontinuing the system of supply-
ing books, instruments, etc.

Order No. 7/22-3

Dated, Bangalore, April 1922

Till the end of the last year, -
books and instruments were being supplied
to all the stipendiary pupils of the -

Medical School free of cost. In the Government Order dated 7th June 1921, it was ordered that during the year - 1921-22 one half of the cost of books and instruments should be paid to the 1st year students and the full cost ~~of~~ to students of the other classes. The Senior Surgeon represents that the system of giving the cost of books in full or in part is beset with practical - difficulties and with a view to obviate such difficulties, suggests that the - system of granting the cost of books be done away with and ~~instead of it~~, ^{it is proposed} the stipends may be increased from Rs.15 to Rs.20 in the case of men and from Rs.20 to Rs.25 in the case of women - students.

2. Government are not in favour of the system under which students are supplied with books at the cost of ~~the~~ Government. The system was adopted in the beginning ^{when} when the school was new and it was doubtful whether students ^{would} ~~will~~ join it freely without some such encouragement. Now that the number of private students has considerably increased, Government ^{do} not consider it necessary to continue the system any longer. They accordingly direct that the concession be altogether stopped in future, except in the case of scholars who have already been enjoying the same. The 3rd and 4th year students of the next year will enjoy the full concession

and the 2nd year students, who will be promoted from the 1st year class will be supplied with books and instruments at half ^{the} cost for the remaining period of their course. To obviate the difficulties referred to in the 1st para above, the Senior Surgeon is requested to arrange for the purchase of books from authorised book-sellers and supply them to the stipendaries, but half the cost will be recovered from the 2nd year students promoted from ~~1st year class~~ the present 1st year class.

3. In view of the orders passed above the question of raising the value of stipends does not arise.

4. In his letter, read above, the Senior Surgeon recommends further the following changes in the scale of tuition fees in the Medical School and Government are pleased to approve of the same:-

(a) The scale of tuition fee in the case of private candidates to be raised from Rs. 50 to Rs. 60 as in Madras and in order to suit the convenience of the poorer classes of pupils it should be made payable in 4 equal quarterly instalments of Rs. 15 by the 10th July (or at the time of admission in the case of new students) ^{subsequent to} 10th October, 10th January and 10th April instead of in advance as at present.

(b) To encourage lady students going forward to obtain training in the Medical profession, private lady students to be admitted as free scholars on paying merely an entrance fee which may be raised from Rs. 2 to Rs. 5 as in Madras.
